③ Solution

```
s = input('enter the string')
```

```
g = (list(map(str, input().split())))
```

```
o = []
```

```
c = len(s)
```

```
for i in g:
```

```
    if i[:c] == s
```

```
        o.append(i)
```

```
print(o)
```
